

AKBAL THE BLUE NIGHT

STILLNESS • REFLECTION • KNOW THYSELF

*Be still. Go within to your Inner Sanctum.
It is time to awaken within the dream.*

Mayan Master Akbal is the energy of the night, the abyss, stillness, and the reflective space of the inner sanctum of the soul. In the soul's mystical space of no time, Master Akbal takes you into the dream time to explore the weavings of the soul, new futures, and the place of all potential.

Call to Master Akbal to take you into the stillness and the place of introspection. It is time to awaken as the conscious dreamer of your life from the quiet soul spaces within. In this quiet inner sanctuary, observe with neutrality what you truly desire. Gifts await as you go within. New ideas, dreams, solutions, and potentiations call you to new life. Choose intentionally and create your life consciously.

If you are in the darkness without vision, feeling limited and difficult energies, embrace the fear, breathe, and ask for help. Call upon Master Akbal and all your angels for support. Even in the darkness, you are not alone. Be compassionate as you are ready to heal. You will understand your soul's lessons in the stillness and return to peace.
